CHAPTER 1: ADVENT OF EUROPEANS IN INDIA

1.1 Background: Why Europeans Came to India

India had long-standing trade relations with Europe. These were disrupted when the Ottoman Empire captured Constantinople (modern Istanbul) in 1453, blocking the traditional land trade routes between Europe and Asia. This forced European nations to find new sea routes to India.

► Key Reasons for European Arrival

- Trade disruption due to Ottoman conquest of Constantinople (1453)
- Huge European demand for Indian spices (pepper, cardamom, cloves) and textiles
- Arab and Turkish middlemen controlled trade routes, reducing European profits
- Renaissance in Europe: scientific thinking, exploration, and navigation advances
- Portuguese and Spanish monarchs actively funded sea exploration expeditions

1.2 Sequence of European Arrivals in India

European Power	Year of Arrival	Key Entry Point	Exam Significance
Portuguese	1498	Calicut (Kozhikode) – Vasco da Gama	First Europeans to arrive; most exam questions

5.2 Causes of the Revolt of 1857

► Immediate Cause

- British refused to address sepoys' grievances

► Military Causes

- Racial discrimination: Indian sepoys paid less, less respected than British officers

- Annexation policy of Dalhousie created widespread insecurity among Indian rulers
