

ALLAHABAD HIGH COURT RO/ARO EXAMINATION

COMPUTER AWARENESS

*Fundamentals • Hardware/Software • Networking • Internet • Cybersecurity • MS Office •
Programming & DBMS*

100 Practice MCQs with Answer Key

Medium-to-Difficult Level | Conceptual, Analytical & Application-Based
Pattern aligned to Allahabad HC RO/ARO, UP-PCS, SSC & related competitive exams

Instructions

- This question set contains 100 multiple-choice questions (MCQs), each carrying four options (A, B, C, D), with only ONE correct answer.
- The difficulty level is calibrated to Medium-to-Difficult, matching the standard of the Allahabad High Court RO/ARO Examination and related State/National-level competitive exams.
- Attempt all questions on your own first. Use the Answer Key (provided at the end of this document) only after completing the full set, to get an accurate sense of your preparation level.
- Questions are grouped section-wise by topic for focused practice; however, in the actual exam, questions may appear in any order.
- Where a question asks for the 'best' or 'most appropriate' answer, choose the option that is most precise and contextually correct, even if more than one option appears partially correct.

Section A: Computer Fundamentals, Hardware & Number Systems (Q1-25)

Q1. Which of the following best describes the time complexity of binary search performed on a sorted array of n elements?

- (A) $O(\log n)$ (B) $O(n \log n)$
(C) $O(n)$ (D) $O(1)$

Q2. In the computer memory hierarchy, which of the following has the FASTEST access time?

- (A) Hard disk (B) Cache memory
(C) RAM (D) CPU registers

Q3. The First Generation of computers primarily used which technology for circuitry?

- (A) Microprocessors (B) Vacuum tubes
(C) Integrated Circuits (IC) (D) Transistors

Q4. Which generation of computers introduced the concept of microprocessors?

- (A) Second Generation (B) Fourth Generation
(C) Third Generation (D) Fifth Generation

Q5. Convert the binary number $(11011)_2$ into its decimal equivalent.

- (A) 25 (B) 27
(C) 29 (D) 31

Q6. What is the decimal equivalent of the hexadecimal number $(2F)_{16}$?

- (A) 49 (B) 51
(C) 47 (D) 45

Q7. Which of the following number systems is used internally by digital computers to store and process data?

- (A) Decimal (B) Binary
(C) Octal (D) Hexadecimal

Q8. 1 Byte is equal to how many bits?

- (A) 4 bits (B) 8 bits
(C) 16 bits (D) 32 bits

Q9. Arrange the following memory units in increasing order of storage capacity: (i) Terabyte (ii) Gigabyte (iii) Megabyte (iv) Petabyte

- (A) (iv) < (i) < (ii) < (iii) (B) (ii) < (iii) < (i) < (iv)
(C) (i) < (ii) < (iii) < (iv) (D) (iii) < (ii) < (i) < (iv)

Q10. Which type of memory is volatile, meaning its contents are lost when power is switched off?

- (A) RAM (B) Hard disk
(C) Flash memory (D) ROM

Q11. Which of the following is an example of secondary (non-volatile) storage?

- (A) RAM (B) Solid State Drive (SSD)
(C) Cache memory (D) Register

Q12. The 'brain' of the computer, responsible for executing instructions, is known as the:

- (A) Control Unit (B) ALU
(C) CPU (D) Memory Unit

- Q13.** Which unit of the CPU performs arithmetic and logical operations?
(A) Input Unit (B) Arithmetic Logic Unit (ALU)
(C) Memory Unit (D) Control Unit (CU)
- Q14.** Which of the following best defines 'clock speed' of a processor?
(A) The size of the processor cache (B) The number of cores in a processor
(C) The number of instruction cycles a processor can execute per second (D) The amount of data a processor can store
- Q15.** A computer's motherboard typically uses which type of memory to store the BIOS/firmware that doesn't lose data when power is off?
(A) Cache (B) ROM
(C) RAM (D) Virtual memory
- Q16.** Which of the following is NOT a type of ROM?
(A) PROM (B) EEPROM
(C) EPROM (D) DRAM
- Q17.** Which of the following input devices works on the principle of converting light energy into electrical signals to capture images?
(A) Mouse (B) Joystick
(C) Keyboard (D) Scanner
- Q18.** An optical mouse uses which of the following to detect movement?
(A) Light-emitting diode (LED) and sensor (B) A mechanical trackball
(C) Sound waves (D) Magnetic field
- Q19.** Which of the following is considered an output device?
(A) Plotter (B) Joystick
(C) Microphone (D) Scanner
- Q20.** Which printer technology uses a laser beam and toner powder to produce high-quality output?
(A) Inkjet printer (B) Laser printer
(C) Dot matrix printer (D) Thermal printer
- Q21.** Which of the following devices is used to convert digital signals to analog signals and vice versa for data transmission over telephone lines?
(A) Modem (B) Hub
(C) Switch (D) Router
- Q22.** Which of the following is true regarding a 'Bit'?
(A) It refers to a group of 4 binary digits (B) It is the smallest unit of data representing 8 binary digits
(C) It is the smallest unit of data representing a single binary digit (0 or 1) (D) It is equal to 1024 bytes
- Q23.** Which of the following best represents the correct ascending order of storage units?
(A) Bit, Nibble, Byte, Kilobyte (B) Kilobyte, Byte, Bit, Nibble
(C) Nibble, Bit, Byte, Kilobyte (D) Byte, Bit, Nibble, Kilobyte
- Q24.** A 'Nibble' consists of how many bits?
(A) 4 bits (B) 8 bits
(C) 2 bits (D) 16 bits
- Q25.** Which of the following statements about cache memory is correct?

- (A)** It is non-volatile and retains data when power is off **(B)** It is a type of secondary storage
(C) It is slower than RAM but cheaper **(D)** It is a small, high-speed memory located close to or within the CPU to speed up access to frequently used data

Section B: Software, Operating Systems & Networking (Q26-50)

Q26. Which of the following is classified as system software?

- (A) MS Word (B) Operating System
(C) Adobe Photoshop (D) Tally

Q27. Which of the following scheduling algorithms used in operating systems can lead to 'starvation' of low-priority processes?

- (A) Shortest Job First (non-preemptive, FCFS tie-break) (B) Priority Scheduling
(C) Round Robin (D) First Come First Served (FCFS)

Q28. In an operating system, 'thrashing' refers to:

- (A) A technique for memory compression (B) A method of process scheduling
(C) A type of virus attack (D) A condition where the system spends most of its time swapping pages instead of executing processes

Q29. Which of the following is an example of an open-source operating system?

- (A) Linux (B) MS-DOS
(C) macOS (D) Windows 11

Q30. A 'Deadlock' in an operating system occurs when:

- (A) A process is terminated abruptly (B) The CPU executes too many processes simultaneously
(C) Two or more processes are unable to proceed because each is waiting for a resource held by another
(D) A process exceeds its allocated memory

Q31. Which of the following is NOT one of the four necessary conditions for a deadlock to occur?

- (A) Circular Wait (B) Hold and Wait
(C) Preemption (D) Mutual Exclusion

Q32. Which of the following best describes 'multitasking' in an operating system?

- (A) Running multiple computers simultaneously (B) Connecting multiple users to a single computer
(C) Using multiple monitors with one CPU (D) Executing multiple processes/tasks concurrently on a single CPU by rapid switching

Q33. Which file system is commonly associated with Windows and supports large file sizes and permissions?

- (A) FAT32 (B) NTFS
(C) ext4 (D) HFS+

Q34. Which of the following is an example of utility software?

- (A) Compiler (B) Antivirus software
(C) Device Driver (D) Operating System

Q35. A program that translates an entire high-level language program into machine code before execution is called a:

- (A) Interpreter (B) Compiler
(C) Assembler (D) Linker

Q36. Which of the following converts source code into machine code line by line during execution, rather than all at once?

- (A) Loader (B) Interpreter
(C) Assembler (D) Compiler

- Q37.** Which software translates assembly language code into machine language?
(A) Compiler (B) Assembler
(C) Linker (D) Interpreter
- Q38.** Which of the following best describes an IP address?
(A) A unique hardware identifier assigned to a network card (B) A type of malware
(C) A unique numerical label assigned to each device connected to a computer network using the Internet Protocol (D) The physical location of a server
- Q39.** How many bits does an IPv4 address consist of?
(A) 128 bits (B) 16 bits
(C) 64 bits (D) 32 bits
- Q40.** IPv6 addresses are composed of how many bits?
(A) 256 bits (B) 32 bits
(C) 64 bits (D) 128 bits
- Q41.** Which network device operates at the Data Link Layer and forwards data based on MAC addresses?
(A) Hub (B) Repeater
(C) Switch (D) Router
- Q42.** Which device is primarily used to connect two different networks and routes data packets between them based on IP addresses?
(A) Router (B) Hub
(C) Repeater (D) Switch
- Q43.** Which of the following network topologies connects all devices to a single central cable, known as a 'backbone'?
(A) Bus Topology (B) Star Topology
(C) Mesh Topology (D) Ring Topology
- Q44.** In which network topology does each device connect to every other device, providing high redundancy but high cabling cost?
(A) Star (B) Ring
(C) Mesh (D) Bus
- Q45.** Which protocol is used to transfer web pages over the internet?
(A) POP3 (B) SMTP
(C) FTP (D) HTTP
- Q46.** Which protocol is primarily used for sending emails?
(A) FTP (B) SMTP
(C) HTTP (D) DNS
- Q47.** DNS stands for:
(A) Data Network System (B) Domain Name System
(C) Domain Naming Server (D) Digital Network Service
- Q48.** Which protocol provides secure, encrypted communication over a computer network, commonly indicated by 'https://' in a URL?
(A) Telnet (B) HTTPS (using SSL/TLS)
(C) FTP (D) HTTP

Q49. Which of the following best describes a LAN (Local Area Network)?

- (A) A network spanning an entire country (B) A network used only for wireless internet
(C) A network confined to a small geographical area such as an office or building (D) A network connecting satellites

Q50. WAN stands for:

- (A) Wide Access Node (B) Wireless Access Network
(C) Wide Area Network (D) Web Area Network

Section C: Internet, MS Office & Cybersecurity (Q51-75)

Q51. Who is widely credited as the inventor of the World Wide Web (WWW)?

- (A) Vint Cerf (B) Bill Gates
(C) Steve Jobs (D) Tim Berners-Lee

Q52. Which of the following is the correct expansion of 'URL'?

- (A) Uniform Reference Link (B) United Resource Locator
(C) Uniform Resource Locator (D) Universal Resource Link

Q53. In a URL such as 'https://www.example.com/page', which part represents the 'protocol'?

- (A) example.com (B) page
(C) https (D) www

Q54. Which of the following is an example of a top-level domain (TLD)?

- (A) .com (B) http
(C) URL (D) www

Q55. A small piece of data stored on a user's computer by a web browser while browsing a website, often used to remember login information, is called a:

- (A) Plug-in (B) Bookmark
(C) Cache (D) Cookie

Q56. Which of the following best defines 'browser cache'?

- (A) A type of search engine (B) A virus that affects browsers
(C) Temporary storage of web page resources on a local device to speed up future page loads (D) An email storage folder

Q57. Which keyboard shortcut is used to open a new tab in most web browsers?

- (A) Ctrl + T (B) Ctrl + N
(C) Ctrl + W (D) Ctrl + O

Q58. In MS Word, which keyboard shortcut is used to apply 'Justify' alignment to a paragraph?

- (A) Ctrl + J (B) Ctrl + R
(C) Ctrl + L (D) Ctrl + E

Q59. In MS Excel, which function is used to find the average of a range of numeric values?

- (A) COUNT() (B) AVERAGE()
(C) MEAN() (D) SUM()

Q60. In MS Excel, which function returns the number of cells in a range that contain numbers?

- (A) COUNTA() (B) SUM()
(C) COUNTBLANK() (D) COUNT()

Q61. In MS Excel, what does the formula =VLOOKUP() primarily perform?

- (A) Validates data entered in a cell (B) Searches for a value in the leftmost column of a table and returns a value in the same row from a specified column
(C) Calculates the variance of a data set (D) Sorts data in ascending order

Q62. Which MS Excel feature allows a user to quickly summarize large datasets by category, e.g., total sales by region?

- (A) Data Validation (B) PivotTable

(C) Goal Seek **(D)** Conditional Formatting

Q63. In MS PowerPoint, the view that displays slides as small thumbnails for easy rearrangement is called:

- (A)** Outline View **(B)** Reading View
(C) Normal View **(D)** Slide Sorter View

Q64. Which file extension is typically associated with a Microsoft Word document (2007 and later)?

- (A)** .doc **(B)** .pdf
(C) .txt **(D)** .docx

Q65. Which of the following is the default file extension for a Microsoft Excel workbook (2007 and later)?

- (A)** .csv **(B)** .xlsx
(C) .xls **(D)** .xlt

Q66. Which of the following best defines 'phishing' in the context of cybersecurity?

- (A)** A technique to speed up internet browsing **(B)** A method of encrypting data for secure transmission
(C) A fraudulent attempt to obtain sensitive information by disguising as a trustworthy entity, typically via email **(D)** A type of firewall configuration

Q67. Which of the following best describes 'ransomware'?

- (A)** A tool used to detect viruses **(B)** A type of firewall
(C) Malicious software that encrypts a victim's files and demands payment for the decryption key **(D)** Software that displays unwanted advertisements

Q68. Which of the following is a characteristic that distinguishes a 'worm' from a typical computer 'virus'?

- (A)** Viruses can only infect mobile devices, not computers **(B)** A worm requires a host program to attach to and spread, while a virus does not
(C) A worm can replicate and spread independently across networks without needing to attach to a host file, unlike a typical virus **(D)** Worms cannot cause any harm to a system

Q69. A 'Trojan Horse' in computing refers to:

- (A)** Malicious software disguised as legitimate software to trick users into installing it **(B)** A self-replicating program that spreads across networks
(C) A type of network topology **(D)** A hardware component used for encryption

Q70. Which of the following is the primary purpose of a 'firewall' in a computer network?

- (A)** To compress files for storage **(B)** To monitor and control incoming and outgoing network traffic based on security rules
(C) To increase internet speed **(D)** To recover lost data

Q71. Two-factor authentication (2FA) enhances security primarily by:

- (A)** Requiring two different passwords for the same account **(B)** Requiring a second, independent form of verification in addition to the password
(C) Doubling the length of the password **(D)** Encrypting data twice

Q72. Which of the following best describes 'encryption'?

- (A)** Scanning a system for viruses **(B)** Compressing data to save storage space
(C) Deleting unnecessary files from a system **(D)** The process of converting data into a coded form to prevent unauthorized access

Q73. Which of the following Indian legislations primarily deals with cybercrime and electronic commerce?

- (A)** The Right to Information Act, 2005 **(B)** The Information Technology Act, 2000

(C) The Indian Penal Code, 1860 **(D)** The Companies Act, 2013

Q74. A DDoS (Distributed Denial of Service) attack primarily aims to:

- (A)** Encrypt files for ransom **(B)** Install spyware on a target device
(C) Steal a user's personal data silently **(D)** Overwhelm a server/network with excessive traffic from multiple sources, making it unavailable to legitimate users

Q75. A 'CAPTCHA' on a website is primarily used to:

- (A)** Speed up page loading **(B)** Distinguish human users from automated bots
(C) Store browsing history **(D)** Encrypt user passwords

Section D: Programming, Databases & Emerging Technologies (Q76-100)

- Q76.** Which of the following data structures works on the principle of 'Last In, First Out' (LIFO)?
(A) Linked List **(B)** Queue
(C) Tree **(D)** Stack
- Q77.** Which of the following data structures works on the principle of 'First In, First Out' (FIFO)?
(A) Array **(B)** Stack
(C) Queue **(D)** Graph
- Q78.** In programming, an 'infinite loop' occurs when:
(A) The loop's terminating condition is never met, causing it to run indefinitely **(B)** A program has no loops at all
(C) A loop executes exactly once **(D)** A loop is nested within another loop
- Q79.** Which of the following best describes a 'variable' in programming?
(A) A fixed value that cannot change during program execution **(B)** A pre-compiled software library
(C) A named storage location in memory that can hold a value, which may change during execution **(D)** A type of programming error
- Q80.** Which of the following is an example of a 'high-level programming language'?
(A) Python **(B)** Assembly language
(C) Machine code **(D)** Binary code
- Q81.** DBMS stands for:
(A) Data Block Memory System **(B)** Digital Base Management Software
(C) Database Management System **(D)** Data Backup Management System
- Q82.** In a relational database, a 'Primary Key' is best described as:
(A) A column (or set of columns) that uniquely identifies each record/row in a table **(B)** A backup copy of the database
(C) A type of database error **(D)** A key used to encrypt the database
- Q83.** Which of the following is used to establish a relationship between two tables in a relational database by referencing the primary key of another table?
(A) Candidate Key **(B)** Foreign Key
(C) Primary Key **(D)** Composite Key
- Q84.** SQL stands for:
(A) Structured Question Logic **(B)** Structured Query Language
(C) Simple Question Language **(D)** Sequential Query Logic
- Q85.** Which SQL command is used to retrieve data from a database table?
(A) SELECT **(B)** DELETE
(C) INSERT **(D)** UPDATE
- Q86.** Which of the following SQL commands is used to remove a table's structure entirely, along with its data, from a database?
(A) REMOVE **(B)** DELETE
(C) TRUNCATE **(D)** DROP

Q87. The process of organizing data in a database to reduce redundancy and improve data integrity is known as:

- (A) Normalization (B) Encryption
- (C) Compilation (D) Virtualization

Q88. Which of the following best defines 'Cloud Computing'?

- (A) Storing data only on a local hard disk (B) A type of computer virus
- (C) A method of weather forecasting using computers (D) Delivery of computing services (storage, servers, software) over the internet ('the cloud') rather than local hardware

Q89. Which of the following is an example of 'Software as a Service' (SaaS)?

- (A) A custom-built operating system kernel (B) Amazon EC2 (virtual servers)
- (C) A physical server in a data centre (D) Google Workspace / Gmail (accessed via a browser without local installation)

Q90. Which of the following best describes 'Artificial Intelligence' (AI)?

- (A) A network protocol (B) A database management technique
- (C) A type of computer hardware (D) The simulation of human intelligence processes by computer systems, such as learning and problem-solving

Q91. 'Machine Learning' is best described as:

- (A) A method of manually programming every possible outcome (B) A subset of AI in which systems learn patterns from data to improve performance without being explicitly programmed for every task
- (C) The process of manufacturing computer chips (D) A type of computer hardware upgrade

Q92. Which of the following best defines the 'Internet of Things' (IoT)?

- (A) A type of antivirus software (B) A programming language for web development
- (C) A protocol used only for email transmission (D) A network of physical devices embedded with sensors and software that connect and exchange data over the internet

Q93. Which of the following is an example of 'Big Data' characteristics, commonly described using the '3 Vs'?

- (A) Volume, Vision, Velocity (B) Variety, Virtue, Velocity
- (C) Value, Vector, Virus (D) Volume, Velocity, Variety

Q94. GUI stands for:

- (A) Global Unified Interface (B) Graphical User Interface
- (C) General User Interface (D) Graphic Utility Index

Q95. Which of the following best describes 'open source software'?

- (A) Software whose source code is publicly available and can be modified/distributed by anyone, often under a specific licence (B) Software that only works on open networks
- (C) Software that is always free but cannot be modified (D) Software that has no licence restrictions whatsoever

Q96. Which of the following is an example of an open-source relational database management system?

- (A) IBM Db2 (B) MySQL
- (C) Oracle Database (proprietary edition) (D) Microsoft SQL Server

Q97. Which of the following best defines 'bandwidth' in networking?

- (A) The security level of a network (B) The maximum rate of data transfer across a network path, typically measured in bits per second
- (C) The physical length of a network cable (D) The number of devices connected to a network

Q98. Which of the following abbreviations correctly expands 'USB'?

- (A) Universal Service Bus (B) Universal Storage Block
(C) Unified System Bus (D) Universal Serial Bus

Q99. Which of the following best describes 'firmware'?

- (A) Application software used for word processing (B) Permanent software programmed into a hardware device's read-only memory to control its basic functions
(C) A type of computer virus (D) A web browser extension

Q100. Which of the following terms refers to software that automatically displays or downloads unwanted advertisements on a user's device?

- (A) Spyware (B) Adware
(C) Firmware (D) Ransomware

Answer Key

Question number is shown in the dark cell; the correct option letter is shown directly below/beside it in the shaded cell.

1	A	2	D	3	B	4	B	5	B	6	C	7	B	8	B	9	D	10	A
11	B	12	C	13	B	14	C	15	B	16	D	17	D	18	A	19	A	20	B

ALLAHABAD HIGH COURT RO/ARO EXAMINATION

ENGLISH LANGUAGE

Grammar (Tense, Voice, Narration) • Error Detection • Vocabulary • Spelling & Usage

100 Practice MCQs with Answer Key

Medium-to-Difficult Level | Conceptual, Analytical & Application-Based
Pattern aligned to Allahabad HC RO/ARO, UP-PCS, SSC & related competitive exams

Instructions

- This question set contains 100 multiple-choice questions (MCQs), each carrying four options (A, B, C, D), with only ONE correct answer.
- The difficulty level is calibrated to Medium-to-Difficult, matching the standard of the Allahabad High Court RO/ARO Examination and related State/National-level competitive exams.
- Attempt all questions on your own first. Use the Answer Key (provided at the end of this document) only after completing the full set, to get an accurate sense of your preparation level.
- Questions are grouped section-wise by topic for focused practice; however, in the actual exam, questions may appear in any order.
- Where a question asks for the 'best' or 'most appropriate' answer, choose the option that is most precise and contextually correct, even if more than one option appears partially correct.

Section A: Grammar — Tenses, Voice & Narration (Q1-25)

- Q1.** Choose the correctly formed sentence in the Passive Voice for: 'The committee will review the proposal tomorrow.'
- (A) The proposal was reviewed by the committee tomorrow. (B) The proposal will being reviewed by the committee tomorrow.
(C) The proposal will be reviewed by the committee tomorrow. (D) The proposal will review by the committee tomorrow.
- Q2.** Identify the correct Passive Voice of: 'Someone has stolen my bicycle.'
- (A) My bicycle had been stolen. (B) My bicycle has stolen.
(C) My bicycle was stolen. (D) My bicycle has been stolen.
- Q3.** Choose the correct Active Voice for the sentence: 'The cake was eaten by the children.'
- (A) The children eat the cake. (B) The children have eaten the cake.
(C) The children ate the cake. (D) The children were eating the cake.
- Q4.** Select the correctly punctuated and structured Indirect (Reported) Speech for: He said, "I am going to the market now."
- (A) He said that he is going to the market then. (B) He told that he was going to the market now.
(C) He said that he was going to the market then. (D) He said that he is going to the market now.
- Q5.** Convert into Indirect Speech: She said, "I will finish the report by tomorrow."
- (A) She said that she would finish the report by tomorrow. (B) She said that she would finish the report by the next day.
(C) She said that she will finish the report by tomorrow. (D) She told that she will finish the report the next day.
- Q6.** Identify the sentence that correctly uses the Present Perfect Continuous tense.
- (A) She has been working on this project for three months. (B) She had been working on this project for three months now.
(C) She has worked on this project since three months. (D) She is working on this project for three months.
- Q7.** Choose the sentence that correctly uses the Past Perfect tense to indicate an action completed before another past action.
- (A) By the time the train arrived, the passengers boarded another one already. (B) By the time the train arrived, the passengers had already boarded another one.
(C) By the time the train had arrived, the passengers boards another one. (D) By the time the train arrives, the passengers had already boarded another one.
- Q8.** Identify the grammatically correct sentence.
- (A) Neither of the answers is correct. (B) Neither of the answer is correct.
(C) Neither of the answers were correct. (D) Neither of the answers are correct.
- Q9.** Choose the sentence that correctly uses Subjunctive Mood.
- (A) If I am you, I would apologise. (B) If I were you, I would apologise.
(C) If I will be you, I would apologise. (D) If I was you, I would apologise.
- Q10.** Identify the correctly formed sentence using a modal verb to express obligation.
- (A) You must submitted the form by Friday. (B) You must to submit the form by Friday.

(C) You must submit the form by Friday. (D) You must submitting the form by Friday.

Q11. Select the correct sentence in Future Perfect tense.

- (A) By next year, she has completed her degree. (B) By next year, she will have completed her degree.
(C) By next year, she will complete her degree. (D) By next year, she will completed her degree.

Q12. Choose the sentence with correct subject-verb agreement.

- (A) The team of researchers have been awarded the grant. (B) The team of researchers was awarded the grant.
(C) The team of researchers are awarded the grant. (D) The team of researchers were awarded the grant.

Q13. Identify the correct sentence regarding subject-verb agreement with 'each' and 'every'.

- (A) Each of the students have submitted their assignment. (B) Each of the students were submitting their assignment.
(C) Each of the students submit their assignment. (D) Each of the students has submitted their assignment.

Q14. Choose the correct Passive Voice for: 'They are building a new bridge over the river.'

- (A) A new bridge is build over the river by them. (B) A new bridge has being built over the river by them.
(C) A new bridge was being built over the river by them. (D) A new bridge is being built over the river by them.

Q15. Select the grammatically correct sentence using the Past Continuous tense.

- (A) I was studying when the phone rang. (B) I was study when the phone rang.
(C) I am studying when the phone rang. (D) I studied when the phone was ringing.

Q16. Convert into Indirect Speech: The teacher said to the students, "Do not make noise in the class."

- (A) The teacher told to the students not to make noise in the class. (B) The teacher told the students not to make noise in the class.
(C) The teacher said that do not make noise in the class. (D) The teacher said the students not to make noise in the class.

ALLAHABAD HIGH COURT RO/ARO EXAMINATION

INDIAN POLITY

*Constitutional History • Fundamental Rights & DPSP • Union & State Executive • Parliament •
Judiciary • Federalism*

100 Practice MCQs with Answer Key

Medium-to-Difficult Level | Conceptual, Analytical & Application-Based
Pattern aligned to Allahabad HC RO/ARO, UP-PCS, SSC & related competitive exams

Instructions

- This question set contains 100 multiple-choice questions (MCQs), each carrying four options (A, B, C, D), with only ONE correct answer.
- The difficulty level is calibrated to Medium-to-Difficult, matching the standard of the Allahabad High Court RO/ARO Examination and related State/National-level competitive exams.
- Attempt all questions on your own first. Use the Answer Key (provided at the end of this document) only after completing the full set, to get an accurate sense of your preparation level.
- Questions are grouped section-wise by topic for focused practice; however, in the actual exam, questions may appear in any order.
- Where a question asks for the 'best' or 'most appropriate' answer, choose the option that is most precise and contextually correct, even if more than one option appears partially correct.

Section A: Constitutional History, Preamble, Union & Citizenship (Q1-25)

- Q1.** The Constituent Assembly of India was constituted in accordance with the recommendations of which plan?

(C) *Justice K. S. Puttaswamy vs Union of India* (2017) (D) *Shreya Singhal vs Union of India* (2015)

Q30. Which Article guarantees protection against ex-post-facto laws, double jeopardy, and self-incrimination?

- (A) Article 22 (B) Article 21
(C) Article 19 (D) Article 20

Q31. Article 22 of the Constitution provides safeguards against arbitrary arrest and detention, but these protections do NOT extend to:

- (A) Citizens accused of ordinary criminal offences (B) Persons detained under a law providing for 'preventive detention'
(C) Foreign nationals accused of crimes (D) Members of Parliament

Q32. Which of the following correctly reflects the present status of 'untouchability' under the Indian Constitution?

- (A) It is regulated but not banned under Article 17 (B) It is abolished and its practice in any form is forbidden under Article 17
(C) It is left to State legislatures to decide (D) It is permitted in private religious ceremonies only

Q33. Article 23 of the Constitution prohibits which of the following practices?

- (A) Discrimination based on religion in public employment (B) Practice of any profession
(C) Traffic in human beings and forced labour (begar) (D) Child labour in factories

Q34. Article 24 of the Constitution prohibits the employment of children below the age of how many years in factories, mines, or other hazardous occupations?

- (A) 18 years (B) 14 years
(C) 16 years (D) 12 years

Q35. The 'Right to Education' as a Fundamental Right under Article 21A applies to children of which age group?

- (A) 3 to 6 years (B) 6 to 18 years
(C) 6 to 14 years (D) 5 to 12 years

Q36. Which Constitutional Amendment inserted Article 21A into the Constitution, making elementary education a Fundamental Right?

- (A) 86th Amendment, 2002 (B) 97th Amendment, 2011
(C) 93rd Amendment, 2005 (D) 73rd Amendment, 1992

Q37. Which of the following Fundamental Rights was converted into a 'legal right' (and removed from Part III) by the 44th Constitutional Amendment Act, 1978?

- (A) Right against Exploitation (B) Right to Constitutional Remedies
(C) Right to Freedom of Religion (D) Right to Property

Q38. Article 32 of the Constitution, which empowers a person to move the Supreme Court directly for enforcement of Fundamental Rights, was described by Dr. B. R. Ambedkar as:

- (A) The 'heart and soul' of the Constitution (B) A purely procedural right
(C) A redundant provision (D) Applicable only in emergencies

Q39. Which writ is issued by a court to direct a public authority to perform a duty it has failed or refused to perform?

- (A) Quo Warranto (B) Habeas Corpus
(C) Certiorari (D) Mandamus

Q40. Which writ is issued to question the legal authority of a person holding a public office?

- (A) Certiorari (B) Quo Warranto
(C) Prohibition (D) Habeas Corpus

Q41. The writ of 'Habeas Corpus' is primarily used to:

- (A) Prevent a lower court from exceeding its jurisdiction (B) Secure the release of a person who has been unlawfully detained
(C) Quash an order of a lower court (D) Compel a public official to perform a duty

Q42. Which of the following writs is issued by a higher court to a lower court or tribunal, either to transfer a pending case or to quash an order already passed for want of jurisdiction?

- (A) Habeas Corpus (B) Mandamus
(C) Quo Warranto (D) Certiorari

Q43. Directive Principles of State Policy are explicitly stated, under Article 37, to be:

- (A) Applicable only to Union Territories (B) Binding only upon the Judiciary
(C) Enforceable in a court of law like Fundamental Rights (D) Not enforceable by any court, but nevertheless fundamental in the governance of the country

Q44. Which landmark case held that Parliament can amend Fundamental Rights but cannot abrogate the 'basic structure' of the Constitution, thereby reconciling Fundamental Rights with DPSP within certain limits?

- (A) Golaknath vs State of Punjab (1967) (B) Kesavananda Bharati vs State of Kerala (1973)
(C) Both (B) and (C) together developed this doctrine (D) Minerva Mills vs Union of India (1980)

Q45. In Minerva Mills vs Union of India (1980), the Supreme Court held that the harmony and balance between Fundamental Rights and DPSP is itself part of the:

- (A) Preamble (B) Ninth Schedule
(C) Seventh Schedule (D) Basic Structure of the Constitution

Q46. Which DPSP Article directs the State to secure a Uniform Civil Code for citizens throughout India?

- (A) Article 44 (B) Article 40
(C) Article 48 (D) Article 51

Q47. As of 2026, which State has implemented a state-level Uniform Civil Code?

- (A) Assam (B) Himachal Pradesh
(C) Uttarakhand (D) Gujarat

Q48. Article 39(d) of the DPSP specifically directs the State to ensure:

- (A) Protection of monuments (B) Free legal aid
(C) Separation of judiciary from executive (D) Equal pay for equal work for both men and women

Q49. Which of the following Fundamental Duties was added later, distinct from the original 10 inserted by the 42nd Amendment Act, 1976?

- (A) To uphold and protect the sovereignty of India (B) To abide by the Constitution and respect its ideals
(C) To safeguard public property and abjure violence (D) The duty of a parent/guardian to provide educational opportunities to their child between 6-14 years of age

Q50. Which committee's recommendations formed the basis for the insertion of Fundamental Duties into the Indian Constitution?

- (A) Balwant Rai Mehta Committee (B) Verma Committee
(C) Sarkaria Commission (D) Swaran Singh Committee

Section C: Union Executive, Parliament & Judiciary (Q51-75)

Q51. If a question arises as to whether a member of either House of Parliament has become subject to disqualification under the Tenth Schedule, the question is decided by:

- (A) The President of India (B) The Speaker/Chairman of the respective House
(C) The Chief Justice of India (D) The Election Commission of India

Q52. Which Supreme Court judgment held that the Speaker's decision under the Tenth Schedule (Anti-Defection Law) is subject to judicial review?

- (A) S. R. Bommai vs Union of India (1994) (B) Indira Nehru Gandhi vs Raj Narain (1975)
(C) Shamsher Singh vs State of Punjab (1974) (D) Kihoto Hollohan vs Zachillhu (1992)

Q53. Under the Tenth Schedule, a member is NOT disqualified on the ground of defection if their original political party merges with another party, PROVIDED that not less than what fraction of the members of the legislature party have agreed to such merger?

- (A) One-half (B) Two-thirds
(C) Three-fourths (D) One-third

Q54. Which Article empowers the President to promulgate Ordinances when Parliament is not in session?

- (A) Article 356 (B) Article 121
(C) Article 213 (D) Article 123

Q55. An Ordinance promulgated by the President under Article 123 must be approved by Parliament within how many weeks of its reassembly, failing which it ceases to operate?

- (A) 6 weeks (B) 12 weeks
(C) 4 weeks (D) 8 weeks

Q56. In D. C. Wadhwa vs State of Bihar (1987), the Supreme Court held that:

- (A) The practice of repeatedly re-promulgating ordinances without placing them before the legislature is unconstitutional and a fraud on the Constitution (B) The Governor has unlimited power to re-promulgate ordinances indefinitely
(C) Ordinances have permanent effect like an Act of Parliament (D) Ordinances cannot be challenged in a court of law

Q57. Which of the following Bills CANNOT be introduced by means of an Ordinance under Article 123?

- (A) A taxation-related Bill (B) A Bill amending an ordinary law
(C) A Constitutional Amendment Bill (D) A Bill relating to Union subjects

Q58. Which Article empowers the Governor of a State to issue Ordinances when the State Legislature is not in session?

- (A) Article 356 (B) Article 200
(C) Article 245 (D) Article 213

Q59. Which of the following correctly describes the doctrine of 'Pith and Substance' as applied by Indian courts?

- (A) Only the Union List has precedence in all conflicts (B) A law automatically becomes void if it touches upon more than one list
(C) It applies only to Money Bills (D) A law is examined for its true nature and substance to determine under which legislative list it falls, even if it incidentally encroaches upon another list

Q60. Under Article 254, in case of a conflict between a Union law and a State law on a subject in the Concurrent List, which law prevails?

- (A) The State law always prevails (B) The matter must be referred to the Supreme Court before any law can operate
(C) Both laws become void (D) The Union law prevails, unless the State law has received Presidential assent and the conflict was duly reserved for consideration

Q61. Which of the following subjects falls under the Union List (List I) of the Seventh Schedule?

- (A) Agriculture (B) Public Order
(C) Police (D) Defence of India

Q62. Which of the following subjects falls under the Concurrent List (List III) of the Seventh Schedule?

- (A) Railways (B) Currency
(C) Education (D) Foreign Affairs

Q63. Residuary powers of legislation (subjects not mentioned in any of the three lists) are vested with:

- (A) The Parliament (Union) (B) The Supreme Court
(C) The State Legislatures (D) Jointly with both Union and State legislatures

Q64. Which Article of the Constitution deals with the appointment of the Chief Justice of India and other Supreme Court judges?

- (A) Article 76 (B) Article 74
(C) Article 148 (D) Article 124

Q65. The 'Collegium System' for the appointment of judges to the Supreme Court and High Courts evolved primarily through which of the following?

- (A) A series of Supreme Court judgments, commonly referred to as the 'Judges Cases' (especially the Second and Third Judges Cases) (B) An executive order of the President
(C) An Act of Parliament titled the Collegium Act (D) A direct constitutional provision explicitly named 'Collegium' in Article 124

Q66. The National Judicial Appointments Commission (NJAC) Act, 2014 and the related 99th Constitutional Amendment Act were:

- (A) Never challenged in any court (B) Applicable only to High Court appointments
(C) Struck down by the Supreme Court in 2015 as unconstitutional, reviving the Collegium system (D) Upheld by the Supreme Court and are currently in force

Q67. Which of the following is true regarding the transfer of a High Court judge from one High Court to another?

- (A) It requires a Constitutional Amendment (B) It can only be done with the judge's prior written consent under all circumstances
(C) It can be done unilaterally by the State Government concerned (D) It is done by the President after consultation with the Chief Justice of India, as per Article 222

Q68. A 'Money Bill' is certified as such by the Speaker, and this certification is, under the Constitution:

- (A) Subject to challenge in the Supreme Court via Article 32 (B) Valid only after Presidential ratification
(C) Subject to review only by the Rajya Sabha Chairman (D) Final and cannot be questioned in any court

Q69. Which Supreme Court judgment examined the issue of certifying ordinary legislation as a 'Money Bill' to bypass the Rajya Sabha (in the context of the Aadhaar Act, 2016)?

- (A) Kesavananda Bharati vs State of Kerala (1973) (B) Rojer Mathew vs South Indian Bank (2019)

(C) Both (A) and (B) are relevant Supreme Court rulings on this issue **(D)** K. S. Puttaswamy vs Union of India (Aadhaar case, 2018)

Q70. Under Article 105, Members of Parliament enjoy certain privileges and immunities; which of the following is correct regarding the scope of these privileges?

- (A)** Privileges apply only to the Speaker and Chairman, not ordinary members **(B)** MPs enjoy freedom of speech in Parliament and immunity from court proceedings in respect of anything said or any vote given in Parliament or its committees
- (C)** MPs have absolute immunity from all legal proceedings for any act, on or off the floor of the House
- (D)** MPs are exempt from all criminal laws during their tenure

Q71. Which of the following is the correct sequence of stages in the passage of an ordinary Bill in Parliament?

- (A)** Second Reading → First Reading → Third Reading → Committee Stage → Presidential Assent **(B)** Committee Stage → First Reading → Second Reading → Third Reading → Presidential Assent
- (C)** First Reading → Second Reading → Committee Stage → Third Reading → Presidential Assent **(D)** First Reading → Committee Stage → Second Reading → Third Reading → Presidential Assent

Q72. The 'Question Hour' in Parliament is primarily used for:

- (A)** Members asking questions to ministers regarding administration and policy, eliciting facts/information
- (B)** Discussing the Union Budget
- (C)** Electing the Speaker **(D)** Voting on Money Bills

Q73. A 'Calling Attention Motion' in Parliament is moved by a member to:

- (A)** Amend the Constitution **(B)** Remove a sitting Minister from office
- (C)** Adjourn the House indefinitely **(D)** Call the attention of a Minister to a matter of urgent public importance and seek an authoritative statement

Q74. Which of the following motions, if passed, would compel the entire Council of Ministers to resign, since it reflects a loss of confidence of the Lok Sabha in the government?

- (A)** Censure Motion (against a specific Minister) **(B)** Calling Attention Motion
- (C)** Adjournment Motion **(D)** No-Confidence Motion

Q75. Unlike a No-Confidence Motion, a 'Censure Motion' in the Lok Sabha:

- (A)** Can be moved against the Council of Ministers as a whole or an individual Minister, and must specify the reasons for the censure **(B)** Has the same legal effect as impeachment of the President
- (C)** Can be moved in the Rajya Sabha alone **(D)** Automatically dissolves the Lok Sabha if passed

Section D: Federalism, Local Government & Constitutional Bodies (Q76-100)

Q76. Which Commission was constituted in 1983 to examine and recommend changes in Centre-State relations?

- (A) Sarkaria Commission (B) Administrative Reforms Commission
(C) Punchhi Commission (D) Rajamannar Committee

Q77. The Punchhi Commission, set up in 2007, was primarily tasked with reviewing:

- (A) Electoral reforms (B) Panchayati Raj finances
(C) Centre-State relations, updating the work of the Sarkaria Commission (D) Judicial appointments

Q78. Which landmark case laid down that the President's Rule under Article 356 is subject to judicial review and cannot be imposed arbitrarily?

- (A) Both (A) and (B) reinforced this principle (B) Rameshwar Prasad vs Union of India (2006)
(C) S. R. Bommai vs Union of India (1994) (D) State of Rajasthan vs Union of India (1977)

Q79. Under Article 263, the President may establish an Inter-State Council to:

- (A) Replace the Finance Commission (B) Inquire into and advise upon disputes between States and discuss matters of common interest to Union and States
(C) Adjudicate boundary disputes between States exclusively (D) Appoint Governors

Q80. Goods and Services Tax (GST), introduced via the 101st Constitutional Amendment Act, 2016, is administered with recommendations from which constitutional body?

- (A) GST Council (Article 279A) (B) NITI Aayog
(C) Finance Commission (D) Inter-State Council

Q81. The GST Council is chaired by:

- (A) The President of India (B) The Union Finance Minister
(C) The Prime Minister (D) The RBI Governor

Q82. Which Article was inserted by the 101st Constitutional Amendment Act, 2016 to provide for the GST Council?

- (A) Article 300A (B) Article 280A
(C) Article 246A and Article 279A (D) Article 368A

Q83. Under Article 280, the Finance Commission's primary function is to recommend:

- (A) Defence budget allocations (B) The distribution of net proceeds of taxes between the Union and the States, and principles governing grants-in-aid
(C) Appointments to the judiciary (D) Foreign policy decisions

Q84. Which of the following best distinguishes the Finance Commission from the GST Council?

- (A) The GST Council is not a constitutional body, while the Finance Commission is purely advisory (B) The Finance Commission is a constitutional body dealing with overall tax devolution every 5 years, while the GST Council is a constitutional body specifically recommending GST rates and related matters on an ongoing basis
(C) The Finance Commission decides GST rates, while the GST Council decides overall devolution (D) They perform identical functions

Q85. Under the 73rd Constitutional Amendment Act, the Gram Sabha is best described as:

- (A) A judicial body for resolving village disputes (B) An executive body of elected Panchayat members only
(C) A body nominated by the State Government (D) A body consisting of all persons registered in the electoral rolls of a village comprised within a Panchayat area

Q86. Reservation for women in Panchayati Raj Institutions, as mandated by the 73rd Amendment, must be NOT LESS than:

- (A) One-third of total seats (including SC/ST reserved seats) (B) There is no constitutionally mandated minimum
(C) One-half of total seats in all States uniformly (D) One-fourth of total seats

Q87. Which body, established under Article 243-I, reviews the financial position of Panchayats and recommends principles governing distribution of funds between the State and Panchayats?

- (A) Comptroller and Auditor General (B) State Finance Commission
(C) Finance Commission (Union) (D) State Election Commission

Q88. Article 243K, dealing with elections to Panchayats, vests the superintendence, direction, and control of such elections in:

- (A) The Election Commission of India (B) The District Magistrate
(C) The State Government directly (D) The State Election Commission

Q89. Which of the following matters is included in the Eleventh Schedule (Panchayats) but NOT in the Twelfth Schedule (Municipalities)?

- (A) Slum improvement and upgradation (B) Water supply for domestic, industrial and commercial purposes
(C) Urban planning including town planning (D) Agriculture, including agricultural extension

Q90. Which of the following correctly describes the constitutional position of the Union Public Service Commission's advice to the Government on disciplinary matters concerning civil servants?

- (A) It is generally sought and given great weight, but is not constitutionally binding on the Government in every instance (B) It is legally binding on the Government in all cases
(C) It is binding only in cases of dismissal, not in cases of promotion (D) UPSC has no role in disciplinary matters whatsoever

Q91. Which Article empowers Parliament to provide for the establishment of a Joint State Public Service Commission for two or more States?

- (A) Article 315 (B) Article 315(2)
(C) Article 320 (D) Article 312

Q92. Which body audits the accounts of Panchayati Raj Institutions and Urban Local Bodies, in addition to its constitutional mandate over Union and State accounts?

- (A) The Comptroller and Auditor General of India (CAG), through technical guidance, though primary local audit is often via the State's Director of Local Fund Audit (B) The Reserve Bank of India
(C) The Election Commission (D) The Finance Commission

Q93. Which Constitutional Amendment Act inserted Part IX-B, granting constitutional status to Co-operative Societies?

- (A) 101st Amendment, 2016 (B) 99th Amendment, 2014
(C) 91st Amendment, 2003 (D) 97th Amendment, 2011

Q94. In a notable 2021 judgment, the Supreme Court partially struck down certain provisions of the 97th Constitutional Amendment Act relating to co-operative societies on the ground that:

- (A) Co-operative societies cannot be regulated by any law (B) Co-operative societies are outside the scope of the Constitution entirely
 (C) The Amendment, insofar as it dealt with State-specific subject matter on co-operatives, required ratification by State Legislatures under the proviso to Article 368(2), which had not been obtained (D) The Amendment was passed without a special majority in Parliament

Q95. Which of the following correctly defines a 'Money Bill' versus a 'Financial Bill' with respect to the role of the Rajya Sabha?

- (A) Money Bills require ratification by States while Financial Bills do not (B) Financial Bills cannot be introduced in the Rajya Sabha under any circumstance
 (C) Both require equal participation of the Rajya Sabha in amending the bill (D) A Money Bill restricts the Rajya Sabha to only recommending changes within 14 days, while a Financial Bill (Type II) allows the Rajya Sabha full participation like an ordinary bill

Q96. The 'Doctrine of Severability' as applied by Indian courts means that:

- (A) Only the unconstitutional part of a statute is declared void, while the valid remaining part continues to operate, if separable (B) Courts cannot strike down any part of a statute
 (C) An entire statute is declared void if even one provision is found unconstitutional (D) It applies only to Constitutional Amendments

Q97. The doctrine of 'Eclipse', as applied to pre-Constitution laws inconsistent with Fundamental Rights, holds that such laws:

- (A) Become dormant/unenforceable against citizens but are not wiped out altogether and can become operative again if the relevant Fundamental Right is subsequently amended (B) Apply only to non-citizens
 (C) Are permanently void from inception and can never be revived (D) Must be entirely re-enacted by Parliament to have any future effect

Q98. Which of the following is NOT one of the grounds on which the Supreme Court can strike down a law as unconstitutional?

- (A) Legislative incompetence (law made on a subject outside the legislature's domain) (B) Mere unpopularity or harshness of the law in the court's subjective opinion
 (C) Violation of Fundamental Rights (D) Violation of the basic structure of the Constitution (for constitutional amendments)

Q99. The concept of 'Judicial Review' in India empowers courts to:

- (A) Appoint Governors to States (B) Draft new legislation directly
 (C) Review and invalidate legislative and executive actions that are inconsistent with the Constitution
 (D) Remove a sitting Prime Minister without Parliamentary process

Q100. Which Article of the Constitution is often cited as the source of the power of judicial review for the Supreme Court, in conjunction with Article 13?

- (A) Article 110 (B) Article 32 (and Article 226 for High Courts)
 (C) Article 280 (D) Article 74

Answer Key

Question number is shown in the dark cell; the correct option letter is shown directly below/beside it in the shaded cell.

1	D	2	A	3	C	4	A	5	D	6	C	7	A	8	C	9	C	10	D

ALLAHABAD HIGH COURT RO/ARO EXAMINATION

GENERAL SCIENCE

Physics • Chemistry • Biology • Environmental & Applied Science

100 Practice MCQs with Answer Key

Medium-to-Difficult Level | Conceptual, Analytical & Application-Based
Pattern aligned to Allahabad HC RO/ARO, UP-PCS, SSC & related competitive exams

Instructions

- This question set contains 100 multiple-choice questions (MCQs), each carrying four options (A, B, C, D), with only ONE correct answer.
- The difficulty level is calibrated to Medium-to-Difficult, matching the standard of the Allahabad High Court RO/ARO Examination and related State/National-level competitive exams.
- Attempt all questions on your own first. Use the Answer Key (provided at the end of this document) only after completing the full set, to get an accurate sense of your preparation level.
- Questions are grouped section-wise by topic for focused practice; however, in the actual exam, questions may appear in any order.
- Where a question asks for the 'best' or 'most appropriate' answer, choose the option that is most precise and contextually correct, even if more than one option appears partially correct.

Section A: Physics (Q1-25)

Q1. Which of Newton's laws of motion explains why a passenger in a moving bus jerks forward when the bus suddenly stops?

- (A) Newton's Third Law (Action-Reaction) (B) Newton's Second Law ($F = ma$)
(C) Law of Conservation of Momentum (D) Newton's First Law (Law of Inertia)

Q2. The SI unit of electric resistance is the:

- (A) Watt (B) Ohm
(C) Ampere (D) Volt

Q3. Which of the following correctly states Ohm's Law?

- (A) $P = VI$, the power formula (B) $E = mc^2$, mass-energy equivalence
(C) $F = ma$, Newton's second law (D) $V = IR$, where V is voltage, I is current, and R is resistance, at constant temperature

Q4. A concave mirror is commonly used in which of the following applications, owing to its ability to converge light rays?

- (A) Security mirrors in shops for a wide field of view (B) Rear-view mirrors in vehicles
(C) Shaving/makeup mirrors and headlights of vehicles (D) Periscopes

Q5. Which type of lens is used to correct myopia (short-sightedness/near-sightedness)?

- (A) Bifocal lens with only convex power (B) Convex lens (converging lens)
(C) Cylindrical lens (D) Concave lens (diverging lens)

Q6. The phenomenon by which white light splits into its seven constituent colours when passed through a prism is called:

- (A) Reflection (B) Refraction
(C) Dispersion (D) Diffraction

Q7. The phenomenon of scattering of light by colloidal particles in the atmosphere, which explains why the sky appears blue, is known as:

- (A) Tyndall Effect (B) Photoelectric Effect
(C) Doppler Effect (D) Compton Effect

Q8. Which of the following best explains why the sky appears blue during the day?

- (A) Blue light has a shorter wavelength and is scattered more by atmospheric molecules (Rayleigh scattering) (B) The ozone layer reflects only blue light
(C) Blue light has a longer wavelength and is scattered more by atmospheric particles (D) The sun emits only blue light

Q9. The SI unit of frequency is the:

- (A) Newton (N) (B) Hertz (Hz)
(C) Watt (W) (D) Joule (J)

Q10. Sound waves are a type of which kind of wave, requiring a medium for propagation?

- (A) Transverse wave only (B) Electromagnetic wave
(C) Mechanical (longitudinal) wave (D) Matter wave

Q11. Which of the following correctly explains why sound cannot travel through a vacuum, unlike light?

- (A) Light requires a medium while sound does not (B) Sound travels faster than light in a vacuum

(C) Sound is a mechanical wave and requires a material medium to propagate, while light (an electromagnetic wave) does not (D) Both sound and light cannot travel through a vacuum

Q12. The phenomenon of an apparent change in frequency of a wave due to relative motion between the source and the observer is known as:

- (A) Doppler Effect (B) Tyndall Effect
(C) Photoelectric Effect (D) Raman Effect

Q13. Which physicist is credited with the discovery of the 'Raman Effect', related to the scattering of light, for which he won the Nobel Prize?

- (A) Homi J. Bhabha (B) Satyendra Nath Bose
(C) C. V. Raman (D) S. Chandrasekhar

Q14. The unit 'Joule' is used to measure which physical quantity?

- (A) Power (B) Pressure
(C) Force (D) Energy/Work

Q15. Power is defined as the rate of doing work, and its SI unit is the:

- (A) Watt (B) Pascal
(C) Joule (D) Newton

Q16. Which law states that the pressure exerted by a confined fluid is transmitted equally and undiminished in all directions, forming the basis of hydraulic systems?

- (A) Bernoulli's Principle (B) Pascal's Law
(C) Boyle's Law (D) Archimedes' Principle

Q17. Archimedes' Principle, which explains why objects float or sink, states that the buoyant force on an object is equal to:

- (A) The weight of the fluid displaced by the object (B) The weight of the object itself
(C) The density of the fluid (D) The volume of the object

Q18. According to Bernoulli's Principle, as the speed of a moving fluid increases, its pressure:

- (A) Remains constant (B) Increases
(C) Decreases (D) Becomes zero

Q19. Which type of current is supplied to households in India, characterised by its periodic reversal of direction?

- (A) Direct Current (DC) (B) Static current
(C) Eddy current (D) Alternating Current (AC)

Q20. The unit 'kilowatt-hour' (kWh), commonly used for electricity billing, is a unit of:

- (A) Power (B) Energy
(C) Voltage (D) Current

Q21. Which of the following devices converts mechanical energy into electrical energy, based on the principle of electromagnetic induction?

- (A) Transformer (B) Generator (Dynamo)
(C) Battery (D) Electric motor

Q22. A transformer is used to:

- (A) Convert AC to DC (B) Store electrical energy

(C) Change the voltage level of an AC supply (step-up or step-down) **(D)** Generate electricity from mechanical energy

Q23. Which scientist's laws of electromagnetic induction form the basic working principle of electric generators and transformers?

- (A)** James Clerk Maxwell **(B)** Michael Faraday
(C) Georg Simon Ohm **(D)** Andre-Marie Ampere

Q24. Nuclear fission, the process used in nuclear power plants, involves:

- (A)** The fusion of light nuclei to form a heavier nucleus, releasing energy **(B)** The decay of radioactive isotopes only
(C) The conversion of mass directly into electricity without any nuclear reaction **(D)** The splitting of a heavy nucleus into lighter nuclei, releasing energy

Q25. Nuclear fusion, the process powering the Sun, involves:

- (A)** Radioactive decay of uranium **(B)** The combination of light nuclei (e.g., hydrogen) to form a heavier nucleus (e.g., helium), releasing enormous energy
(C) The splitting of heavy nuclei into lighter ones **(D)** A chemical combustion reaction

Section B: Chemistry (Q26-50)

- Q26.** Which of the following is the chemical formula for common table salt?
(A) NaOH (B) NaHCO₃
(C) NaCl (D) Na₂CO₃
- Q27.** The pH scale, used to measure the acidity or alkalinity of a solution, ranges from:
(A) 0 to 14 (B) 0 to 7
(C) -7 to 7 (D) 1 to 10
- Q28.** A solution with a pH value of 7 is considered:
(A) Strongly acidic (B) Neutral
(C) Strongly alkaline (basic) (D) Highly corrosive
- Q29.** Which gas is most abundant in the Earth's atmosphere by volume?
(A) Argon (B) Nitrogen
(C) Oxygen (D) Carbon dioxide
- Q30.** Which of the following gases is primarily responsible for the greenhouse effect and is a major contributor to global warming?
(A) Carbon dioxide (B) Oxygen
(C) Nitrogen (D) Helium
- Q31.** Photosynthesis in green plants primarily uses which gas as a raw material, releasing oxygen as a by-product?
(A) Carbon dioxide (B) Nitrogen
(C) Hydrogen (D) Methane
- Q32.** Which of the following elements has the chemical symbol 'Fe'?
(A) Francium (B) Ferrum (a separate element from Iron)
(C) Fluorine (D) Iron
- Q33.** The chemical symbol 'Au' represents which element?
(A) Aluminium (B) Gold
(C) Argon (D) Silver
- Q34.** Which of the following is an example of a noble (inert) gas, known for its general unreactivity?
(A) Hydrogen (B) Nitrogen
(C) Oxygen (D) Helium
- Q35.** The process by which a solid changes directly into a gas without passing through the liquid state is called:
(A) Evaporation (B) Deposition
(C) Condensation (D) Sublimation
- Q36.** Which of the following is an example of a substance that undergoes sublimation under normal atmospheric conditions?
(A) Naphthalene (mothballs) / dry ice (B) Common salt
(C) Sugar (D) Water
- Q37.** Hard water, which does not lather easily with soap, contains dissolved salts of which elements primarily?

- (A) Sodium and Potassium (B) Iron and Zinc
(C) Copper and Aluminium (D) Calcium and Magnesium

Q38. Which process is commonly used to soften temporarily hard water by boiling, which causes the dissolved bicarbonates to precipitate out?

- (A) Boiling has no effect on hardness (B) Boiling removes permanent hardness caused by sulphates/chlorides
(C) Boiling converts hard water into distilled water directly (D) Boiling removes temporary hardness caused by calcium/magnesium bicarbonates

Q39. Which of the following is the chemical name for 'baking soda', commonly used in cooking?

- (A) Potassium bicarbonate (B) Calcium carbonate
(C) Sodium bicarbonate (D) Sodium carbonate

Q40. Which acid is commonly found in the human stomach, aiding digestion?

- (A) Nitric acid (B) Sulphuric acid
(C) Acetic acid (D) Hydrochloric acid

Q41. Vinegar primarily contains which acid, giving it a sour taste?

- (A) Oxalic acid (B) Citric acid
(C) Lactic acid (D) Acetic acid

Q42. Which of the following correctly describes an 'isotope'?

- (A) Atoms of different elements with the same mass number (B) Molecules with the same chemical formula but different structures
(C) Atoms of the same element with the same number of protons but different numbers of neutrons (D) Compounds with identical physical properties but different chemical properties

Q43. Which of the following best describes an 'isomer' in organic chemistry?

- (A) Compounds with the same molecular formula but different structural arrangements (B) Atoms with the same number of protons but different neutrons
(C) Compounds formed by the same elements in different physical states (D) Elements occupying the same position in the periodic table

Q44. The modern periodic table arranges elements primarily in order of increasing:

- (A) Number of neutrons (B) Atomic number
(C) Atomic mass (D) Density

Q45. Which scientist is credited with developing the modern periodic law, arranging elements by atomic number?

- (A) Henry Moseley (modern periodic law, by atomic number) (B) John Dalton
(C) Antoine Lavoisier (D) Dmitri Mendeleev (original periodic table, by atomic mass)

Q46. Which of the following is an example of an alloy, rather than a pure element or simple compound?

- (A) Water (B) Carbon dioxide
(C) Brass (copper and zinc) (D) Oxygen

Q47. Stainless steel resists rusting primarily due to the presence of which alloying element?

- (A) Chromium (B) Carbon
(C) Nickel alone, without chromium (D) Zinc

Q48. The process of coating iron or steel with a thin layer of zinc to prevent rusting is called:

- (A) Anodising (B) Galvanisation
(C) Annealing (D) Electroplating with copper

Q49. Rusting of iron is an example of which type of chemical reaction?

- (A) Decomposition reaction (B) Oxidation reaction (an electrochemical process involving oxygen and moisture)
(C) Neutralisation reaction (D) Reduction reaction only

Q50. Which of the following gases is used in fire extinguishers because it does not support combustion?

- (A) Carbon dioxide (B) Oxygen
(C) Methane (D) Hydrogen

Section C: Biology — Human Physiology, Botany & Genetics (Q51-75)

Q51. Which organ in the human body is primarily responsible for filtering blood and producing urine?

- (A) Kidney (B) Pancreas
(C) Liver (D) Spleen

Q52. The functional and structural unit of the kidney, responsible for filtration, is called the:

- (A) Neuron (B) Alveolus
(C) Nephron (D) Hepatocyte

Q53. Which blood vessels carry oxygenated blood AWAY from the heart to the rest of the body (with one major exception, the pulmonary artery)?

- (A) Venules (B) Veins
(C) Arteries (D) Capillaries

Q54. Which chamber of the human heart pumps oxygenated blood into the aorta to be circulated throughout the body?

- (A) Left ventricle (B) Right atrium
(C) Left atrium (D) Right ventricle

Q55. Which blood component is primarily responsible for clotting, preventing excessive bleeding from wounds?

- (A) Red blood cells (erythrocytes) (B) Plasma
(C) Platelets (thrombocytes) (D) White blood cells (leukocytes)

Q56. Which blood group is often referred to as the 'universal donor' because it can be given to recipients of any ABO blood group in emergencies?

- (A) AB positive (B) A positive
(C) O negative (D) B negative

Q57. Which blood group is referred to as the 'universal recipient'?

- (A) O negative (B) AB positive
(C) B positive (D) A negative

Q58. The hormone insulin, which regulates blood glucose levels, is produced by which organ?

- (A) Pancreas (B) Liver
(C) Thyroid gland (D) Adrenal gland

Q59. A deficiency in insulin production or its effective use leads to which common disease?

- (A) Diabetes mellitus (B) Anaemia
(C) Hypothyroidism (D) Hypertension

Q60. Which gland, located in the neck, regulates the body's metabolic rate through the hormone thyroxine?

- (A) Pancreas (B) Pituitary gland
(C) Adrenal gland (D) Thyroid gland

Q61. Which gland is often referred to as the 'master gland' because it controls the secretions of most other endocrine glands?

- (A) Pineal gland (B) Adrenal gland
(C) Thyroid gland (D) Pituitary gland

Q62. Vitamin D deficiency in humans primarily leads to which condition, affecting bone health?

- (A) Beriberi (B) Scurvy
(C) Night blindness (D) Rickets (in children) / Osteomalacia (in adults)

Q63. Deficiency of Vitamin C in the diet leads to which disease, characterised by bleeding gums and weakness?

- (A) Beriberi (B) Rickets
(C) Pellagra (D) Scurvy

Q64. Night blindness is commonly associated with the deficiency of which vitamin?

- (A) Vitamin A (B) Vitamin B1
(C) Vitamin K (D) Vitamin C

Q65. Which vitamin is unique in that it can be synthesised by the human body upon exposure to sunlight?

- (A) Vitamin A (B) Vitamin E
(C) Vitamin D (D) Vitamin C

Q66. Vitamin K plays a crucial role in which physiological process?

- (A) Bone calcification alone, unrelated to clotting (B) Wound healing of skin tissue alone
(C) Vision (D) Blood clotting

Q67. Photosynthesis primarily takes place within which cell organelle in plant cells?

- (A) Nucleus (B) Golgi apparatus
(C) Chloroplast (D) Mitochondria

Q68. Which organelle is often referred to as the 'powerhouse of the cell' because it is the primary site of cellular respiration and ATP production?

- (A) Ribosome (B) Lysosome
(C) Endoplasmic reticulum (D) Mitochondria

Q69. Which of the following correctly distinguishes a plant cell from an animal cell?

- (A) Plant cells possess a cell wall and chloroplasts, which animal cells generally lack (B) Animal cells are always larger than plant cells
(C) Only plant cells have mitochondria (D) Only animal cells have a nucleus

Q70. The green pigment in plants responsible for absorbing light energy during photosynthesis is called:

- (A) Anthocyanin (B) Xanthophyll
(C) Chlorophyll (D) Carotene

Q71. The process by which plants lose excess water in the form of vapour through small pores called stomata is known as:

- (A) Transpiration (B) Respiration
(C) Guttation (D) Translocation

Q72. DNA (Deoxyribonucleic Acid), the molecule carrying genetic information, has which characteristic structural shape?

- (A) A branched tree-like structure (B) A double helix
(C) A flat circular ring only (D) A single straight chain

Q73. Which scientists are credited with discovering the double helix structure of DNA?

- (A) Alexander Fleming and Joseph Lister (B) James Watson and Francis Crick
(C) Gregor Mendel and Charles Darwin (D) Louis Pasteur and Robert Koch

Q74. Gregor Mendel, regarded as the 'Father of Genetics', conducted his pioneering experiments on heredity using which plant?

- (A) Wheat (B) Rice
- (C) Maize (D) Pea plants

Q75. Which blood cells are primarily responsible for fighting infections as part of the body's immune system?

- (A) Platelets (B) Red blood cells
- (C) White blood cells (D) Plasma proteins exclusively

Section D: Diseases, Environmental Science & Applied Science (Q76-100)

- Q76.** Which of the following diseases is caused by a bacterium, as distinct from a viral disease?
(A) Tuberculosis (B) Chickenpox
(C) Common cold (D) Influenza
- Q77.** Tuberculosis (TB) primarily affects which organ, though it can also affect other parts of the body?
(A) Kidneys (B) Liver
(C) Lungs (D) Heart
- Q78.** Malaria is caused by a parasite of which genus, transmitted through the bite of an infected female Anopheles mosquito?
(A) Trypanosoma (B) Plasmodium
(C) Leishmania (D) Entamoeba
- Q79.** Dengue fever and Chikungunya are both transmitted primarily by which mosquito species?
(A) Anopheles (B) Aedes aegypti
(C) Mansonia (D) Culex
- Q80.** Which of the following diseases is caused by a virus?
(A) Rabies (B) Tetanus
(C) Cholera (D) Typhoid
- Q81.** Vaccination works on the principle of stimulating the body's immune system to produce which protective response?
(A) Direct destruction of all pathogens immediately upon injection (B) Antibodies, providing immunological memory against a specific pathogen
(C) Permanent sterilisation of the pathogen in the environment (D) Reduction of body temperature to inhibit pathogen growth
- Q82.** Edward Jenner is credited with developing the first successful vaccine, against which disease?
(A) Smallpox (B) Polio
(C) Rabies (D) Tuberculosis
- Q83.** Louis Pasteur, a pioneer of microbiology, developed vaccines for which of the following diseases?
(A) Rabies and anthrax (B) Malaria and dengue
(C) Smallpox and polio (D) Tuberculosis and cholera
- Q84.** Which of the following best defines the term 'antibiotic resistance', a growing global health concern?
(A) The ability of bacteria to survive exposure to antibiotics that would normally kill them, due to genetic adaptation/overuse of antibiotics (B) The ability of the human body to resist all infections without medication
(C) A vaccine's ability to prevent bacterial infections (D) The process by which antibiotics become less potent when stored at room temperature
- Q85.** Which gas, when released in excess from vehicles and industries, is a major contributor to acid rain?
(A) Oxygen and Nitrogen (B) Sulphur dioxide and Nitrogen oxides
(C) Helium and Neon (D) Carbon monoxide alone
- Q86.** The depletion of which atmospheric layer, caused largely by chlorofluorocarbons (CFCs), allows harmful ultraviolet radiation to reach the Earth's surface?

- (A) Ionosphere (B) Ozone layer (in the stratosphere)
(C) Mesosphere (D) Troposphere

Q87. The Montreal Protocol, an international treaty, was specifically designed to address which environmental issue?

- (A) Phasing out substances responsible for ozone layer depletion (B) Marine plastic pollution
(C) Global warming due to carbon dioxide emissions (D) Deforestation

Q88. Which of the following best describes 'Biological Oxygen Demand' (BOD), a key indicator of water pollution?

- (A) The total oxygen content of a water body, irrespective of pollution (B) The amount of dissolved oxygen required by microorganisms to break down organic matter in water; higher BOD indicates greater pollution
(C) The amount of oxygen produced by aquatic plants (D) The oxygen consumed by fish in a water body

Q89. Eutrophication, a process harmful to aquatic ecosystems, is primarily caused by:

- (A) Excessive cooling of water bodies (B) Increase in water clarity
(C) Reduction in water salinity (D) Excessive nutrient enrichment (e.g., from fertiliser runoff), leading to algal blooms and oxygen depletion in water bodies

Q90. Which renewable energy source directly converts sunlight into electricity using semiconductor materials?

- (A) Solar photovoltaic (PV) energy (B) Wind energy
(C) Geothermal energy (D) Hydropower

Q91. Biogas, used as a renewable fuel, is primarily composed of which gas?

- (A) Methane (primarily), along with carbon dioxide and other gases (B) Hydrogen (primarily)
(C) Oxygen (primarily) (D) Carbon dioxide (primarily)

Q92. Which of the following is an example of a non-renewable source of energy?

- (A) Solar energy (B) Tidal energy
(C) Coal (D) Wind energy

Q93. The 'Greenhouse Effect' refers to:

- (A) The trapping of heat in the Earth's atmosphere by gases such as carbon dioxide and methane, leading to a warming effect (B) The growth of plants in glass greenhouses
(C) The cooling of the Earth's surface due to reflection of sunlight (D) The depletion of the ozone layer

Q94. Which of the following is considered the most effective measure to reduce indoor exposure to radon gas, a known carcinogen?

- (A) Increasing the use of fluorescent lighting (B) Reducing humidity using a dehumidifier alone
(C) Painting walls with lead-based paint (D) Improving ventilation and sealing foundation cracks

Q95. Which of the following correctly explains why a pressure cooker cooks food faster than an open vessel?

- (A) It reduces the boiling point of water (B) It increases the volume of water used for cooking
(C) It uses microwave radiation to cook food (D) Increased pressure inside the cooker raises the boiling point of water, allowing food to cook at a higher temperature

Q96. At higher altitudes, water boils at a lower temperature than at sea level primarily because:

- (A) Gravity is weaker at higher altitudes (B) Atmospheric pressure decreases with altitude, lowering the boiling point

(C) The air is colder at higher altitudes, which lowers boiling point directly (D) Oxygen levels increase at higher altitudes

Q97. Which type of mirror is commonly used as a rear-view/side mirror in vehicles because it provides a wider field of view, even though images appear smaller?

- (A) Plane mirror (B) Convex mirror
(C) Concave mirror (D) Parabolic mirror used exclusively

Q98. The Richter scale is used to measure the magnitude of which natural phenomenon?

- (A) Floods (B) Tsunamis (it measures earthquakes, which may trigger tsunamis, not the tsunami itself)
(C) Cyclones (D) Earthquakes

Q99. Which instrument is used to measure atmospheric pressure?

- (A) Hygrometer (B) Anemometer
(C) Thermometer (D) Barometer

Q100. Which instrument is used to measure wind speed?

- (A) Hygrometer (B) Seismograph
(C) Barometer (D) Anemometer

Answer Key

Question number is shown in the dark cell; the correct option letter is shown directly below/beside it in the shaded cell.

1	D	2	B	3	D	4	C	5	D	6	C	7	A	8	A	9	B	10	C

ALLAHABAD HIGH COURT RO/ARO EXAMINATION

UTTAR PRADESH GENERAL KNOWLEDGE

History • Geography • Administration & Polity • Culture, Tourism & Personalities

100 Practice MCQs with Answer Key

Medium-to-Difficult Level | Conceptual, Analytical & Application-Based

Pattern aligned to Allahabad HC RO/ARO, UP-PCS, SSC & related competitive exams

Instructions

- This question set contains 100 multiple-choice questions (MCQs), each carrying four options (A, B, C, D), with only ONE correct answer.
- The difficulty level is calibrated to Medium-to-Difficult, matching the standard of the Allahabad High Court RO/ARO Examination and related State/National-level competitive exams.
- Attempt all questions on your own first. Use the Answer Key (provided at the end of this document) only after completing the full set, to get an accurate sense of your preparation level.
- Questions are grouped section-wise by topic for focused practice; however, in the actual exam, questions may appear in any order.
- Where a question asks for the 'best' or 'most appropriate' answer, choose the option that is most precise and contextually correct, even if more than one option appears partially correct.

Section A: History — Ancient, Medieval & Freedom Movement (Q1-25)

- Q1.** Which ancient university, a renowned centre of Buddhist learning, was located in present-day Uttar Pradesh near Patna's border region (in the Siddharthnagar/Sant Kabir Nagar belt of historical importance, often linked with Sravasti)?
(A) Valabhi (B) Nalanda
(C) Takshashila (D) Vikramshila
- Q2.** Sarnath, near Varanasi in Uttar Pradesh, is significant in Buddhist history because:
(A) It is the place where Buddha attained enlightenment (B) It is the birthplace of Gautam Buddha
(C) It is the place where Buddha attained Mahaparinirvana (death) (D) It is the place where Buddha delivered his first sermon (Dharmachakra Pravartana)
- Q3.** Kushinagar, a district in Uttar Pradesh, holds religious significance as the place where:
(A) Buddha attained enlightenment (B) Buddha attained Mahaparinirvana
(C) Buddha delivered his first sermon (D) Buddha was born
- Q4.** Which ancient kingdom, with its capital at Kaushambi (near present-day Prayagraj/Kosam), was a major power in the 6th century BCE Mahajanapada period?
(A) Magadha (B) Avanti
(C) Kosala (D) Vatsa
- Q5.** Ayodhya, in Uttar Pradesh, was the ancient capital of which Mahajanapada/kingdom?
(A) Kashi (B) Panchala
(C) Kosala (D) Vatsa
- Q6.** Which Mughal Emperor built the Taj Mahal at Agra in memory of his wife Mumtaz Mahal?
(A) Jahangir (B) Shah Jahan
(C) Aurangzeb (D) Akbar
- Q7.** Fatehpur Sikri, built by Emperor Akbar near Agra, was abandoned primarily due to:
(A) An earthquake (B) Religious conflict among courtiers
(C) Acute shortage of water supply (D) A military invasion
- Q8.** The Battle of Panipat (1526), in which Babur defeated Ibrahim Lodi and laid the foundation of the Mughal Empire, was fought near which region (Panipat lies close to UP's western border)?
(A) Within present-day Haryana, close to the Uttar Pradesh border (B) Within present-day Varanasi
(C) Within present-day Agra (D) Within present-day Lucknow
- Q9.** Which Mughal Emperor was born in Allahabad (Prayagraj) Fort?
(A) Jahangir (B) Aurangzeb
(C) Shah Jahan (D) Akbar
- Q10.** In which city of Uttar Pradesh did Maharani Lakshmi Bai of Jhansi rule, becoming a key figure of the Revolt of 1857?
(A) Jhansi (B) Meerut
(C) Kanpur (D) Lucknow
- Q11.** The Revolt of 1857 is widely considered to have begun on 10 May 1857 at which Uttar Pradesh cantonment town?
(A) Lucknow (B) Bareilly

(C) Kanpur (D) Meerut

Q12. Which leader led the rebel forces at Kanpur during the Revolt of 1857, and was associated with the Satichaura Ghat massacre incident?

(A) Both (A) and (C) are correct, as Nana Sahib led with Tantia Tope as his general (B) Tantia Tope (primary general, while Nana Sahib was the nominal leader)

(C) Nana Sahib (D) Bahadur Shah Zafar

Q13. Begum Hazrat Mahal played a leading role in the Revolt of 1857 in which Uttar Pradesh city?

(A) Jhansi (B) Kanpur

(C) Meerut (D) Lucknow

Q14. The Chauri Chaura incident of 1922, which led Mahatma Gandhi to withdraw the Non-Cooperation Movement, took place in which district of Uttar Pradesh?

(A) Deoria (B) Ballia

(C) Gorakhpur (D) Azamgarh

Q15. The Kakori Train Robbery/Conspiracy of 1925, involving revolutionaries like Ram Prasad Bismil and Ashfaqulla Khan, took place near which Uttar Pradesh city?

(A) Lucknow (near Kakori village) (B) Kanpur

(C) Agra (D) Varanasi

Q16. Mangal Pandey, whose actions at Barrackpore are often cited as a spark for the 1857 Revolt, hailed from which present-day Uttar Pradesh district?

(A) Jaunpur (B) Faizabad (Ayodhya)

(C) Ghazipur (D) Ballia

Q17. Which Uttar Pradesh city is known as the birthplace of Chandra Shekhar Azad's revolutionary activities, and where he is commemorated with a major park (Azad Park)?

(A) Varanasi (B) Lucknow

(C) Allahabad (Prayagraj) (D) Kanpur

Q18. The 'Quit India Movement' of 1942 saw significant uprisings in which Uttar Pradesh district, notably in Ballia, which came to be called 'Baghi Ballia' (Rebel Ballia)?

(A) Mau (B) Azamgarh

(C) Deoria (D) Ballia

Q19. Which Indian National Congress session, held in 1916 in Lucknow, is notable for the Lucknow Pact between the Congress and the Muslim League?

(A) Lahore Session, 1929 (B) Surat Session, 1907

(C) Calcutta Session, 1911 (D) Lucknow Session, 1916

Q20. Which prominent freedom fighter and later Prime Minister of India belonged to Allahabad (Prayagraj), Uttar Pradesh?

(A) Jawaharlal Nehru (B) Lal Bahadur Shastri

(C) Chandra Shekhar (D) Govind Ballabh Pant

Q21. Lal Bahadur Shastri, the second Prime Minister of India, was born in which Uttar Pradesh town?

(A) Mughalsarai (near Varanasi) (B) Allahabad

(C) Varanasi (D) Faizabad

Q22. Which Uttar Pradesh-based newspaper, edited by Ganesh Shankar Vidyarthi, played a key role in spreading nationalist sentiment in the early 20th century?

- (A) Young India (B) Kesari
(C) Pratap (published from Kanpur) (D) Harijan

Q23. Which prominent social reformer and founder of the Arya Samaj was closely linked to reformist activity that spread widely across the United Provinces (now UP)?

- (A) Ishwar Chandra Vidyasagar (B) Jyotirao Phule
(C) Swami Dayanand Saraswati (D) Raja Ram Mohan Roy

Q24. The United Provinces of Agra and Oudh was renamed 'Uttar Pradesh' in which year?

- (A) 1950 (B) 1956
(C) 1937 (D) 1947

Q25. Before being renamed Uttar Pradesh, the state was known by which name, formed by the merger of Agra Province and Oudh (Awadh)?

- (A) Central Provinces (B) United Provinces of Agra and Oudh
(C) Awadh Province (D) North-Western Provinces

Section B: Geography, Rivers, Climate & Agriculture (Q26-50)

Q26. Uttar Pradesh shares its international border with which neighbouring country?

- (A) Nepal (B) Myanmar
(C) Bhutan (D) Bangladesh

Q27. With how many Indian States does Uttar Pradesh share its boundary, making it the State bordering the maximum number of other States?

- (A) 6 States (B) 9 States
(C) 8 States (D) 7 States

Q28. Which river, considered the most sacred in Hinduism, flows through Uttar Pradesh cities including Kanpur, Prayagraj, and Varanasi?

- (A) Ganga (B) Gomti
(C) Yamuna (D) Saryu

Q29. The confluence (Sangam) of the Ganga, Yamuna, and the mythical Saraswati rivers, the site of the Maha Kumbh, is located at which Uttar Pradesh city?

- (A) Mathura (B) Prayagraj (Allahabad)
(C) Haridwar (D) Varanasi

Q30. Which river flows through Lucknow, the capital of Uttar Pradesh?

- (A) Ghaghara (B) Ganga
(C) Yamuna (D) Gomti

Q31. The Yamuna river, a major tributary of the Ganga, passes through which of the following Uttar Pradesh cities?

- (A) Lucknow and Kanpur (B) Gorakhpur and Basti
(C) Agra and Mathura (D) Varanasi and Mirzapur

Q32. Which of the following rivers forms a part of the India-Nepal border area before entering Uttar Pradesh, and is associated with frequent flooding in eastern UP?

- (A) Betwa (B) Ghaghara (Saryu)
(C) Ken (D) Chambal

Q33. Which physiographic region covers the largest part of Uttar Pradesh's land area?

- (A) The Aravalli range (B) The Himalayan region
(C) The Vindhyan/Bundelkhand Plateau region (D) The Indo-Gangetic Plain

Q34. The Bundelkhand region of Uttar Pradesh is characterised by which geographical feature, making it prone to drought?

- (A) Dense alluvial soil with high rainfall (B) Permanent glacial cover
(C) Rocky, undulating terrain with comparatively low and erratic rainfall (D) Coastal mangrove ecosystem

Q35. Which Uttar Pradesh region lies in the southernmost part of the state, characterised by the Vindhyan hills and forests, including Sonbhadra district?

- (A) Doab region (B) Western UP / Rohilkhand
(C) Bundelkhand and the Vindhya region (D) Terai region

Q36. The fertile plain lying between the Ganga and Yamuna rivers in Uttar Pradesh is commonly referred to as:

- (A) The Bhangar (B) The Doab
(C) The Terai (D) The Bhabar

Q37. Which narrow belt of marshy, forested land lies in northern Uttar Pradesh along the Nepal border, known for its distinct ecosystem and wildlife sanctuaries?

- (A) The Doab region (B) The Bundelkhand Plateau
(C) The Terai region (D) The Bhabar region

Q38. Which Uttar Pradesh national park, located in the Terai region of Lakhimpur Kheri district, is known for tiger conservation?

- (A) Chandraprabha Wildlife Sanctuary (B) Dudhwa National Park
(C) Kaimur Wildlife Sanctuary (D) Ranipur Wildlife Sanctuary

Q39. Which Uttar Pradesh sanctuary, located along the Chambal river, is notable for the conservation of gharials and dolphins?

- (A) Dudhwa National Park (B) National Chambal Sanctuary
(C) Okhla Bird Sanctuary (D) Hastinapur Wildlife Sanctuary

Q40. Which of the following is the State Animal of Uttar Pradesh?

- (A) Royal Bengal Tiger (B) Black Buck
(C) Indian Elephant (D) Barasingha (Swamp Deer)

Q41. Which of the following is the State Bird of Uttar Pradesh?

- (A) Sarus Crane (B) Indian Roller
(C) Peacock (D) Great Indian Bustard

Q42. Which crop, grown extensively in western Uttar Pradesh, makes the State India's leading producer, supplying a major share of the country's output and supporting a large sugar industry?

- (A) Cotton (B) Rice
(C) Wheat (D) Sugarcane

Q43. Uttar Pradesh is the largest producer in India of which of the following crops?

- (A) Sugarcane and wheat (among the top producing States) (B) Tea
(C) Coffee (D) Rubber

Q44. The Kalanamak rice variety, famous for its distinct aroma and dark husk, is a Geographical Indication (GI) tagged product associated with which region of Uttar Pradesh?

- (A) Western UP (Meerut belt) (B) Bundelkhand
(C) Vindhya region (D) Siddharthnagar and surrounding Terai districts

Q45. Which Uttar Pradesh city is particularly famous for mango cultivation, especially the 'Dussehri' variety, and hosts a GI tag for it?

- (A) Allahabad (B) Varanasi
(C) Saharanpur (D) Malihabad (Lucknow)

Q46. Which Uttar Pradesh district is well known for its 'Petha' (a sweet made from ash gourd) as a GI-tagged product?

- (A) Agra (B) Mathura
(C) Meerut (D) Kanpur

Q47. The 'Banarasi Saree', a GI-tagged handwoven textile product, is associated with which Uttar Pradesh city?

- (A) Lucknow (B) Kanpur
